**You are responsible for making sure you have acquired your limited license PRIOR to the start of your clinic work. The clinic staff will help you complete your applications and submit them to the bar, but it is ultimately your responsibility to ensure that your limited license is processed in time for the start of your clinic work. Students who begin the semester without their limited license may find their clinic grades adversely affected as some students may need to appear in court or file documents with the court the very first week of class. If you are using a limited license for summer work, you also must file for a change/addition of supervising attorney with the Idaho State Bar. This also needs to be done PRIOR to the start of your clinic work because our faculty cannot supervise you on your limited license obtained for your summer work supervisors. If you have any questions or concerns about your limited license, please see Todd Bowman or Cindy Maylott in Moscow or Amelia Wheelen in Boise.**
