

Directions: Relating Program Learning Outcomes to a Course Learning Outcome or another Program Learning Outcome in Anthology Outcomes (Updated September 2021)

1. Please follow the instructions in the “*Accessing Program Level Assessment in Anthology Outcomes*” section above. In Step 5, select “Connection.”

2. A pop-up box will display and ask whether you want to “assign” or “relate” the connection. Select “relate” to connect the program learning outcome to an assessed course learning outcome. This tells the system that you will use data collected on a course learning outcome as a proxy for the program learning outcome.

3. The system will now ask you which learning outcomes you wish to relate. Navigate through the list of possible connections to view the learning outcomes

you can select from. As you click on a program or course, you can click on the arrow to the left to open it up. You will see the possible learning outcomes on the right-hand side. IMPORTANT: If the course you are looking for does not appear on the list, send an email to assessment@uidaho.edu asking for it to be added. This only has to be added once and will then continue to show up for you in the future.

Your list should look similar to the example – initially showing program and courses:

The screenshot displays the 'Career Ready, BS Academic Year 2021' interface. At the top, there are navigation tabs for 'Program Learning Outcomes', 'Taxonomy', and 'Curriculum Map'. A 'Term' dropdown is set to 'Fall 2021', and a 'Back to List' link is visible. The main content area shows a learning outcome titled 'Communication' with a description: 'The student will be able to clearly and effectively exchange information, ideas, facts, and perspectives with persons inside and outside of an organization.' Below this, there are status indicators: 'Uncategorized', 'Nonfunctional Verb(s)', and 'Mastered'. A search bar contains 'COVID-19 Notes'. The 'Related Connection' section is highlighted with a yellow circle and contains a list of items:

- Career Ready, BS
- CR 101
- CR 201
- CR 447
- CR 505
- CR 600

To the right of this list, two learning outcomes are displayed: 'Critical Thinking/Problem Solving' and 'Equity and Inclusion', each with an 'Add' button. At the bottom, there is a 'Related Preview' section with a 'Cancel' button and a 'Submit' button.

You can click on the **arrow** to the left of the course, to open it up and display the sections. Select the section you wish to assign by clicking on the corresponding “plus sign.” You can continue to relate learning outcomes until all the ones you want, are added.
