Barb –
Sorry for the slow response. Provost/EVP Wiencek is fine with your plan and the extension request.

Subject: cascading plans

Hi Provost Wiencek:

UI Extension is in the process of conducting a state-wide needs assessment. We hosted listening sessions in six different locations throughout the state the first two weeks in January and we also reached out to 7 of our more rural counties with an electronic listening session. We are currently surveying our county commissioners and will be distributing a survey to Idaho Food Producers, commodity groups and various individuals. The goal is for these data to be analyzed in time for our Extension Annual Conference April 3-6. It is our plan to use this information to develop our Extension Strategic Plan.

After consulting with Dean Parrella, we would like to request an extension as to when our cascading plan is due to your office. Our goal is to complete our plan by the end of the semester.

Thank you for considering our request.

Barbara
