SCIENCEV: WHAT, WHY, HOW

RESEARCH AND FACULTY DEVELOPMENT FACULTY SUCCESS SEMINAR SERIES

Nancy Holmes, Proposal Development Specialist,
Research and Faculty Development

Ann-Marie Bilderback, Sponsored Program Administrator,
Office of Sponsored Programs

Please note that this session is being recorded

OFFICE OF RESEARCH AND FACULTY DEVELOPMENT

I We provide proposal development assistance across the spectrum*

I Meet goals in the UI strategic plan – grow research and creative efforts across all disciplines

I Reach out to request service – uidaho.edu/orfd

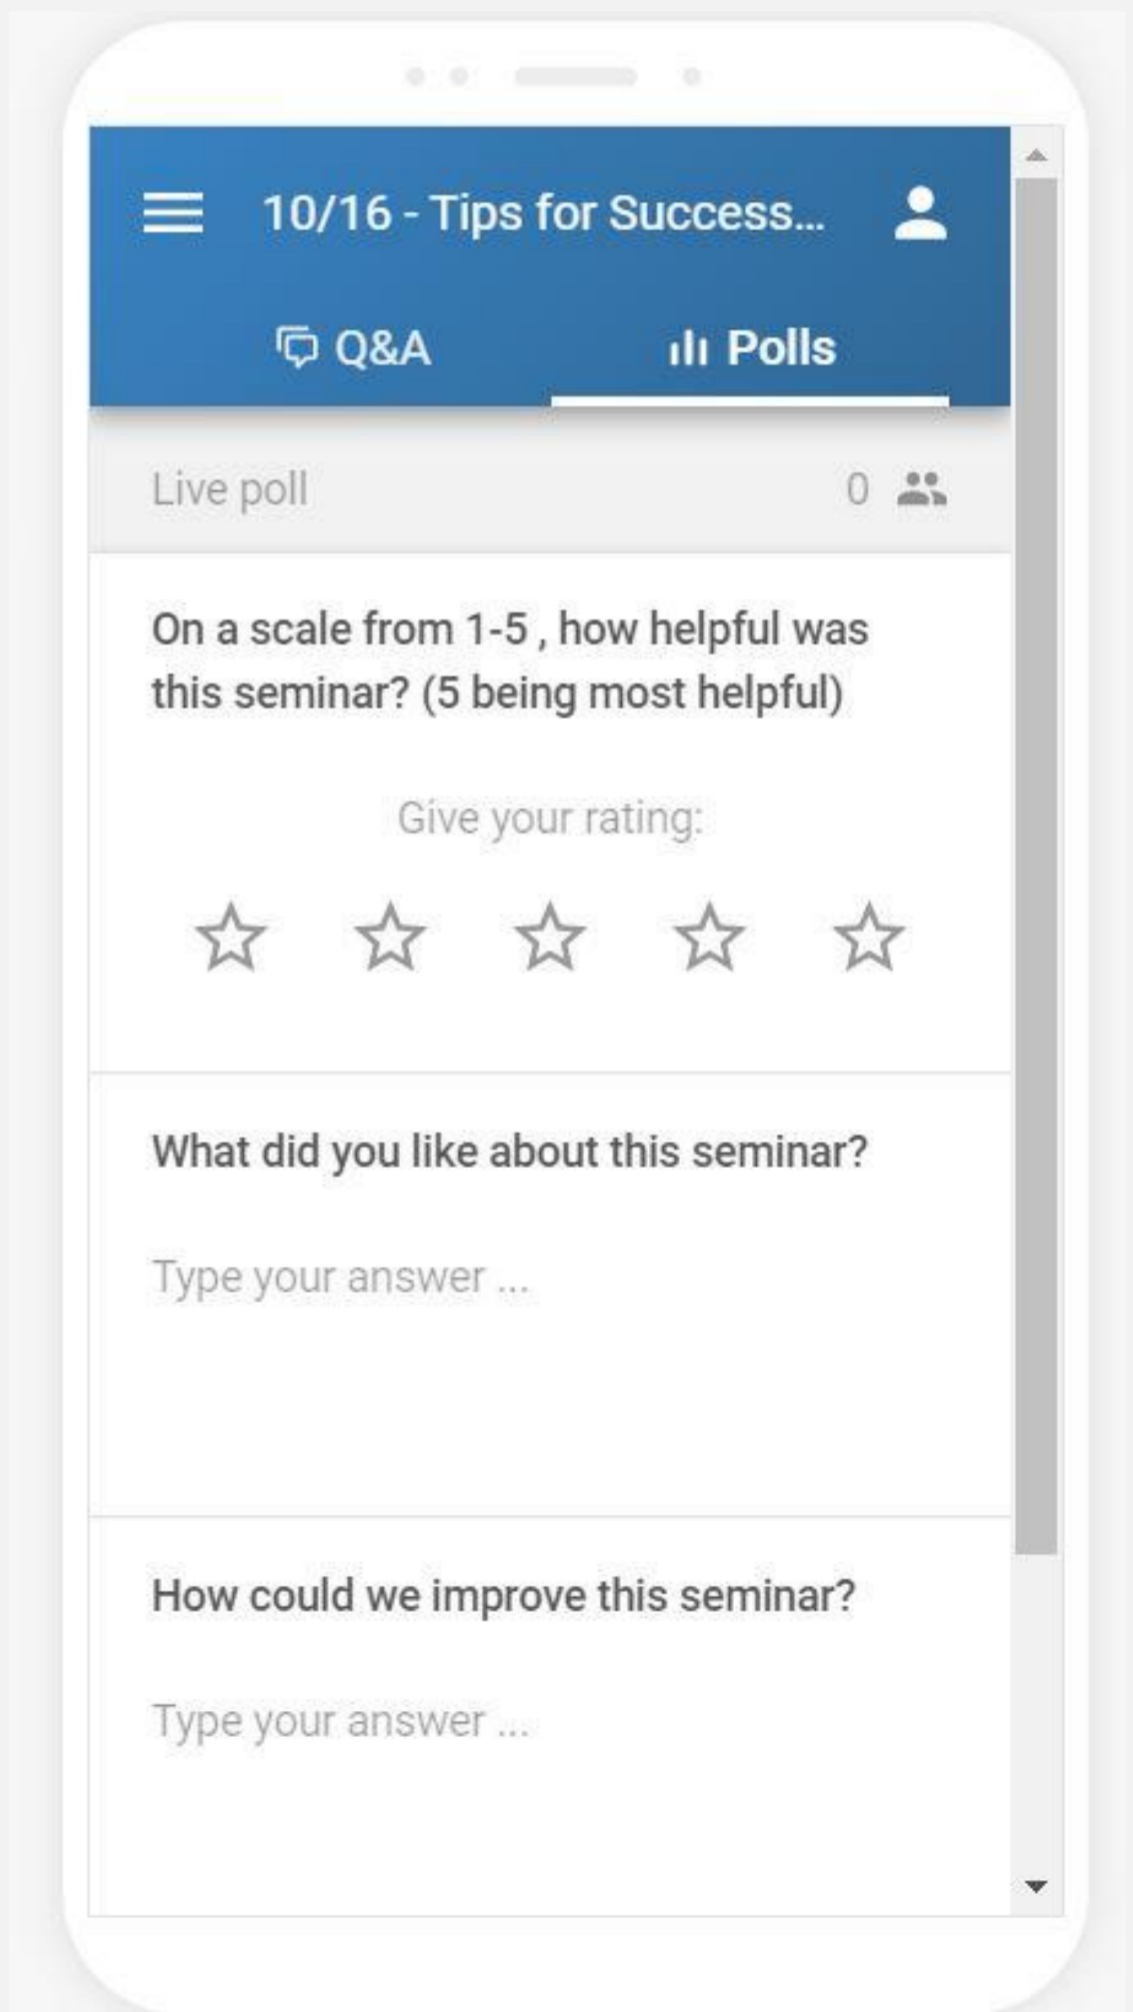

*Not including budget preparation

All services are optional and are granted on a first come, first served basis

HELP US IMPROVE OUR SEMINARS

- I After the Q&A session: brief 3 question sli.do poll
- *On a scale from 1-5, how helpful was this seminar?*
 - *What did you like most about this seminar?*
 - *How can we improve this seminar?*

www.slido.com or use the **sli.do** app (Use code #FSS)

OBJECTIVES

 Learn about SciENcv

 Quick look at ORCID

 Understand how to use SciENcv to create NSF-approved biosketches and Current & Pending Support forms

WHAT IS SCIENCv?

Science Experts Network Curriculum Vitae (SciENcv)

- I SciENcv is an online tool that helps researchers assemble the professional information needed for participation in federally funded research, including NSF and NIH biosketches and NSF Current and Pending forms
- I In SciENcv you can document your education, employment, research activities, publications, honors, research grants, and other professional contributions.

- I NSF has partnered with the National Institutes of Health (NIH) to use SciENCv: an NSF-approved format for use in preparation of both the *Biographical Sketch* and *Current and Pending Support* sections of an NSF proposal.
- I The SciENCv tool integrates with *ORCID*, enabling proposers to populate their Biographical Sketches by importing data directly from their ORCID records rather than having to manually enter all the required information.

- I Any researcher may register
- I Leverages data from existing systems
- I Data are owned by the researcher
- I Researcher controls what data are public
- I Researcher edits and maintains information
- I Researcher provides own data to describe research outcomes
- I Researcher has ultimate control over data in biosketch

What is SciENCv?

<https://www.ncbi.nlm.nih.gov/sciencv/>

Science Experts Network Curriculum Vitae (SciENCv)
Is a FREE electronic system that helps you assemble the professional profile needed for federal funding applications.

SciENCv supports these federal agencies:

- National Science Foundation
- National Institutes of Health
- Department of Education

Benefits:

- Reduces burden
- Leverages existing data from other systems
- Automatically formats to requirements (margins, fonts, etc.)

WHY

- I Beginning June 1, 2020, NSF proposers will be required to use one of the NSF-approved formats for both the *Biographical Sketch* and *Current and Pending Support* sections of NSF proposals.
- I **NSF is also providing a fillable PDF as an NSF-approved format for use to prepare both the Biographical Sketch and Current and Pending Support sections of an NSF proposal.** Proposers can download the respective fillable PDF form from the NSF biographical sketch and current and pending support websites and then submit the completed forms as part of their proposals via FastLane, Research.gov or Grants.gov.
- I Proposals submitted via FastLane, Research.gov and Grants.gov will be compliance checked to ensure that the documents were prepared in accordance with this new policy.

NSF-Approved Formats for the Biographical Sketch & Current and Pending Support Sections of NSF Proposals

NSF ar  ciENcv
April 9, 2020

NSF-Approved Formats for the Biographical
Sketch & Current and Pending Support
Sections of NSF Proposals

[https://www.nsfpolicyoutreach.com/resources/
april-2020-nsf-approved-formats-for-proposals/](https://www.nsfpolicyoutreach.com/resources/april-2020-nsf-approved-formats-for-proposals/)

Policy Implementation Biographical Sketch

- Requires senior personnel to use an NSF-approved format to generate the biographical sketch
- Appointments section must include any titled academic, professional, or institutional position whether or not remuneration is received.
- Synergistic Activities must be specific and may not include multiple examples to describe a single activity.

Policy Implementation

Current & Pending Support

National Science Foundation

- NSF uses the information to assess the capacity of the individual to carry out the research as proposed as well as to help assess any potential overlap/duplication.
- Requires senior personnel to use an NSF-approved format to generate current and pending support information.
- Information must be provided for all current and pending support irrespective of whether such support is provided through the proposing organization or directly to the individual.
- Project or in-kind contributions without a time commitment are not required to be reported in Current and Pending Support.
- In-kind contributions that are intended for use on the project/proposal being proposed to NSF must be included as part of the Facilities, Equipment and Other Resources section of the proposal.
- Examples of current and pending support expanded to include non-profit organizations.

Research.gov Proposal Preparation – Biographical Sketch

- During proposal preparation, users provide Biographical Sketch information in the Senior Personnel Documents Section
- When a user clicks on Biographical Sketch, they are taken to a document upload page with instructions

The screenshot displays the Research.gov Proposal Preparation interface. The browser address bar shows the URL: `web.acpt.research.gov/proposalprep/#/proposal/1410/1415/sr-personnel-documents`. The navigation menu includes: My Desktop, Prepare & Submit Proposals, Awards & Reporting, Manage Financials, and Administration. An attention banner states: "Research.gov currently supports preparation and submission of research proposals including collaborative proposals. View the Research.gov Proposal System Release Timeline for more information." The left sidebar menu lists: Proposal - 1410, Manage Personnel and Subaward Organizations, Required, Cover Sheet, Project Summary, Project Description, References Cited, Budget(s), Budget Justification(s), Facilities, Equipment and Other Resources, Senior Personnel Documents, and Data Management Plan. The main content area is titled "Senior Personnel Documents" and includes a video link: "Video: How to Manage Senior Personnel Documents". A table lists personnel and their associated documents:

| Personnel Name | Role | Organization |
|--|--------------------------------------|-------------------------------------|
| Alan A Alphaman | Principal Investigator | National Science Foundation |
| Documents | | |
| Biographical Sketch | Last Updated: 11/30/2018 2:10 PM EST | Compliance Status [Key]: Warning(s) |
| Current and Pending Support | | Document unavailable for check |
| Collaborators and Other Affiliations (Single-copy document) | | Document unavailable for check |
| Test T Tester | Other Senior Personnel | |

Research.gov Proposal Preparation – Biographical Sketch

- Effective June 1, 2020, users can access both NSF-approved formats for the Biographical Sketch by clicking on the [NSF-Approved Formats for the Biographical Sketch](#) page or can go directly to [SciENCv](#) via the link provided.
- If the user has already generated their Biographical Sketch in an NSF-approved format, they can upload the PDF document directly to their proposal from their computer.

The screenshot displays the Research.gov interface for proposal preparation. At the top, the user is logged in as Alan Alphaman. The main navigation bar includes 'My Desktop', 'Prepare & Submit Proposals', 'Awards & Reporting', 'Manage Financials', and 'Administration'. A navigation breadcrumb shows the path: 'My Desktop > Proposal Preparation > Proposal - 2040 > Senior Personnel Documents > Biographical Sketch - Alan A Alphaman'. The page title is 'Biographical Sketch - Alan A Alphaman'. A red box highlights the 'Instructions to upload Biographical Sketch' section, which includes: 'Please refer to the Format of the proposal (PAPPG) for all margin and spacing', 'Users must submit Biographical Sketches in an NSF-approved format, such as SciENCv. A list of approved formats and policy guidance are available at the NSF-Approved Formats for Biographical Sketch policy page.', 'File cannot exceed 2 pages', 'Maximum file size permitted is 10 MB', 'Only 1 document can be uploaded', and 'Accepted file types include: Adobe PDF'. Another red box highlights the 'Browse for file to upload' button. Below the button, a file named 'SuppDoc_MadinBiosketch.pdf' is listed with a 'Delete' option.

Research.gov Proposal Preparation – Biographical Sketch

- Clicking the [NSF-Approved Formats for the Biographical Sketch](#) link opens the policy page
- If the user clicks the [SciENCv](#) link, they will be directed to the SciENCv website.
- If the user clicks the [NSF Fillable PDF](#) link, they will be able to download, populate, and save the completed form to their computer.
- This page also links to Frequently Asked Questions (FAQs) for both NSF-approved formats for the Biographical Sketch.

The screenshot shows a web browser window with the URL <https://www.nsf.gov/bfa/dias/policy/biosketch.jsp>. The page is the National Science Foundation's (NSF) policy page for biographical sketches. The header includes the NSF logo and the tagline "WHERE DISCOVERIES BEGIN". The main navigation bar contains links for Research Areas, Funding, Awards, Document Library, News, and About NSF. The left sidebar lists various offices, including the Office of Budget Finance and Award Management (BFA), and the Division of Institution & Award Support. The main content area is titled "NSF-Approved Formats for the Biographical Sketch" and contains the following text:

NSF requires a biographical sketch (limited to two pages) for each individual identified as senior personnel. Detailed information about the content is available in the Proposal and Award Policies and Procedures Guide (PAPPG), Chapter II.C.2.f.

Use of an NSF-approved format for the biographical sketch will be required upon implementation of the PAPPG (NSF 20-1), for all proposals submitted or due on or after June 1, 2020.

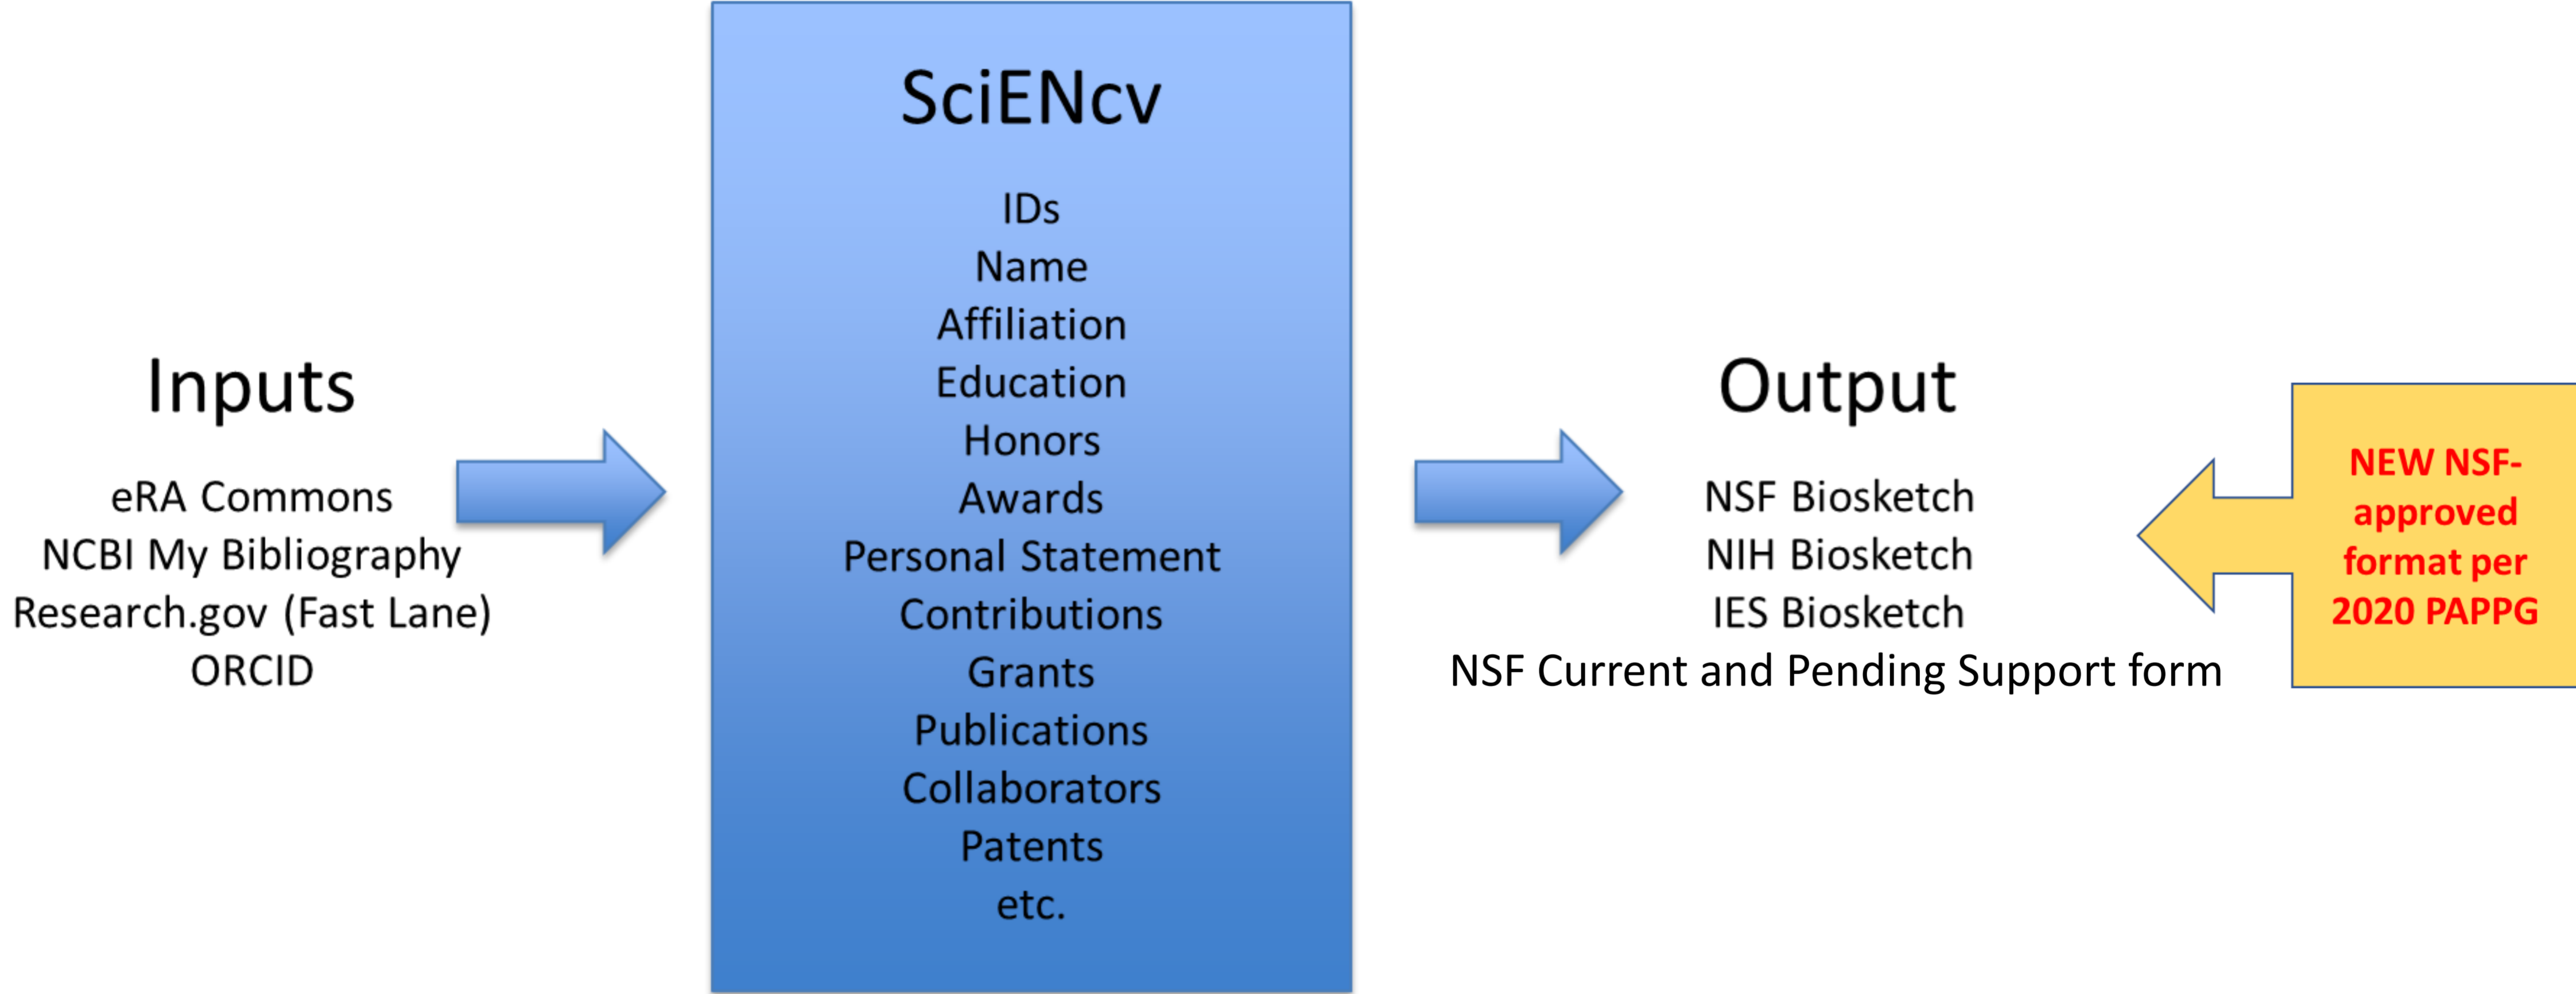

Approved formats for creating biographical sketches are:

- **SciENCv - (AVAILABLE NOW!)** NSF has partnered with the National Institutes of Health (NIH) to use SciENCv: Science Experts Network Curriculum Vitae as an NSF-approved format for use in preparation of the biographical sketch section of an NSF proposal. Adoption of a single, common researcher profile system for Federal grants reduces administrative burden for researchers. SciENCv will produce an NSF-compliant PDF version of the biographical sketch. Proposers must save these documents and submit them as part of their proposals via FastLane, Research.gov or Grants.gov.
 - [FAQs on using SciENCv](#)
- **NSF Fillable PDF - (AVAILABLE NOW!)** NSF is providing a fillable PDF for use in preparation of the biographical sketch. Proposers will be able to download it from this page, complete the form, and upload it as part of their proposal via FastLane, Research.gov or Grants.gov.
 - [FAQs on using NSF Fillable PDF](#)

Questions

For system-related questions, please contact FastLane User Support at [1-800-673-6188](tel:1-800-673-6188) or fastlane@nsf.gov. Policy-related questions regarding the content of the formats should be directed to policy@nsf.gov.

What SciENCv does:

ORCID Open Researcher and Contributor IDentifier

ORCID is an international, interdisciplinary, open, non-proprietary, and not-for-profit organization created by the research community for the benefit of all stakeholders, including you and the organizations that support the research ecosystem.

ORCID provides a persistent digital identifier (an ORCID iD) that distinguishes you from other researchers and a record that supports automatic links among all your professional activities. Your ORCID iD and connections are stored in the ORCID Registry, in an account you own and manage.

HOW TO USE SCIENCv

- Optional (but recommended): Create an ORCID iD and populate ORCID with your biography, publications and products
- Go to the SciENCv site: <https://www.ncbi.nlm.nih.gov/sciencv/>
- Sign in to NCBI (National Center for Biomedical Information)
 - Note: You do not need to create a SciENCv/NCBI account to prepare and generate an NSF biosketch. While there are several ways to authenticate into the system, NSF encourages users to sign in to SciENCv with their NSF ID and password, or via ORCID
- Create your biosketch (NSF or NIH) and/or your NSF Current and Pending Support form

SciENcv is an application in My NCBI that helps you create online professional profiles that can be made public to share with others. In SciENcv you can document your education, employment, research activities, publications, honors, research grants, and other professional contributions.

NIH eRA Commons, NSF, and ORCID account holders who have linked their accounts to NCBI can populate their SciENcv profiles with the information stored in their eRA, NSF, or ORCID accounts.

Institutions interested in obtaining a copy of the current data schema can download it from about SciENcv.

My Bibliography

Created: December 13, 2010; Last Revision: October 23, 2019.

Estimated reading time: 13 minutes

My Bibliography is a reference tool that helps you save your citations from PubMed or, if not found there, to manually upload a citations file, or to enter citation information using My Bibliography templates. My Bibliography provides a centralized place for your publications where citations are easily accessed, exported as a file, and made public to share with others.

When linked to an eRA account, My Bibliography includes more features which allow eRA Commons users to see whether their publications comply with the NIH Public Access Policy, to start the compliance process for their publications, and to associate their publications to awards. In addition, [HRA](#) grantees can associate their publications to their HRA awards in My Bibliography.

D. SYNERGISTIC ACTIVITIES

List up to five distinct examples that demonstrate the broader impact of the individual's professional and scholarly activities that focus on the integration and transfer of knowledge as well as its creation. Synergistic activities should be specific and must not include multiple examples to further describe the activity.

1. A list of up to five examples that demonstrate the broader impact of the individual's professional and scholarly activities that focuses on the integration and transfer of knowledge as well as its creation. Examples could include, among others: innovations in teaching and training (e.g., development of curricular materials and pedagogical methods); contributions to the science of learning; development and/or refinement of research tools; computation methodologies, and algorithms for problem-solving.

2. I will never submit personal information such as home address; home telephone, fax, or cell phone numbers; home e-mail address; date of birth; citizenship; drivers' license numbers; marital status; personal hobbies; and the like.

Move [up](#) / [down](#) | [delete](#) | [edit](#)

Such personal information is irrelevant to the merits of the proposal. If such information is included, NSF will make every effort to prevent unauthorized access to such material, but the Foundation is not responsible or in any way liable for the release of such material.

3. The activities are specific and must not include multiple examples to further describe the activity.

Innovations in teaching and training; contributions to the science of learning; development and/or refinement of research tools; computation methodologies and algorithms for problem-solving; development of databases to support research and education; broadening the participation of groups underrepresented in STEM; and service to the scientific and engineering community outside of the individual's immediate organization.

Current and Pending Support Summary

PROJECT/PROPOSAL INFORMATION

Current and Pending Support includes all resources made available to an individual in support of and/or related to all of his/her research efforts, regardless of whether or not they have monetary value. [1] Information must be provided about all current and pending support, including this project, for ongoing projects, and for any proposals currently under consideration from whatever source [2], irrespective of whether such support is provided through the proposing organization or is provided directly to the individual. Concurrent submission of a proposal to other organizations will not prejudice its review by NSF, if disclosed.[3]

[1]If the time commitment or dollar value is not readily ascertainable, reasonable estimates should be provided.

[2]For example, Federal, State, local, foreign, public or private foundations, non-profits, industrial or other commercial organizations or internal funds allocated toward specific projects.

[3]The Biological Sciences Directorate exception to this policy is delineated in PAPPG Chapter II.D.2.

IN-KIND CONTRIBUTION INFORMATION

Current and Pending Support also includes in-kind contributions (such as office/laboratory space, equipment, supplies, employees, students). If the in-kind contributions are intended for use on the project being proposed to NSF, the information must be included as part of the Facilities, Equipment and Other Resources section of the proposal and need not be replicated in the individual's Current and Pending Support submission. In-kind contributions not intended for use on the project/proposal being proposed that have associated time obligations must be reported below. If the time commitment or dollar value is not readily ascertainable, reasonable estimates should be provided.

You have not listed any support. [Add Project/Proposal](#) [Add In-Kind Contribution](#)

Current and Pending Support Summary

PROJECT/PROPOSAL INFORMATION

Current and Pending Support includes all resources made available to an individual in support of and/or related to all of his/her research efforts, regardless of whether or not they have monetary value. [1] Information must be provided about all current and pending support, including this project, for ongoing projects, and for any proposals currently under review, regardless of whether the support is from a funding agency, a government, a business, a non-profit organization or is provided directly to the individual.

[1] If the time commitment or effort is significant, please provide an estimate of the number of person-months or person-years committed to the project.

[2] For example, Federal, State, or local government, university, or other organization toward specific projects.

[3] The Biological Sciences Director's Office will review the information provided to determine if the support is reasonable and if it meets the criteria for inclusion in the summary.

IN-KIND CONTRIBUTION

Current and Pending Support also includes in-kind contributions that are intended for use on the project/proposal being proposed. In-kind contributions should be described in a separate section of the proposal and new estimates should be provided for each year. Reasonable estimates should be provided for each year.

You have not listed any support.
