Faculty Development

Office of Research and Economic Development (ORED)
Research, Infrastructure and Scholarly Excellence (RISE)
Funding Program (UPDATED 3/5/19)

Research, Infrastructure, and Scholarly Excellence (RISE) funds are competitively awarded by the Office of Research and Economic Development (ORED) to further the development of research, scholarly and creative activities across all disciplines. RISE grants are intended to enhance the competitiveness of future proposals submitted to external sponsors, and/or result in publications, patents, awards, performances, or other deliverables related to the PI's discipline.

To participate in the ORED RISE funding programs, a PI must be in a tenure-track or research faculty position and must have submitted all reports and requirements from previous ORED awards and all sponsored activities. Additionally, a PI cannot apply to a specific RISE program from which they have been awarded funds in the last two years (e.*g.*, Jumpstart (JS) awardees are not eligible to apply for JS funding until two years after the project end date, but they are eligible to apply to other RISE programs).

UPDATE (3/5/19): Advancing Collaborative Efforts and Arts & Humanities Project Support Programs are now open!

If you have any questions, please contact RFD at ORED-RFDTeam@uidaho.edu.

PROGRAM	ADDITIONAL PROGRAM INFORMATION	FUNDING	DEADLINE
