The Analytics Reports will give you a view of all enrollment data. This report will allow you to pull a comprehensive list of information and include inactive users. The Overview Dashboard includes widgets for a visual representation of your data.

Note:

- Some features might be limited depending on your user role permissions. Analytics are accessible for users with Manager and Bridge Observer roles.
- The Manager's view will look exactly like the Bridge Observer view, with the only distinctions being the users and team group names available for filtering.
- There is a one-hour cache for Analytics; this means if you have new data it could take up to an hour to populate.
- For any inquiries regarding the system or training, please submit a help ticket.

Filters in the Overview Dashboard

To access the Analytics report you will go to the Analytics option in the navigation menu and select Overview. Here you have several filter options and the options to Search, Hide Filters, and Additional Options.
Filter Options

<table>
<thead>
<tr>
<th>Filter Options</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Enrollment Date</strong></td>
<td>Can be set to various options, as depicted in the screenshots above. You have the flexibility to select from multiple options for this filter, including 'is in the last' followed by a variable (which you manually input), then 'seconds', 'minutes', 'hours', 'days', 'weeks', and so forth. <strong>Note:</strong> Choose &quot;is any time&quot; unless you have specific requirements for a date range.</td>
</tr>
<tr>
<td><strong>Account Name</strong></td>
<td>Must be set to Bridge@Uofl only.</td>
</tr>
<tr>
<td><strong>Required (Yes / No)</strong></td>
<td>Filter option will allow you to select if you want to look specifically for required or optional enrollments; leaving this filter as-is will search for both enrollment types.</td>
</tr>
</tbody>
</table>

The **Account Name** must be set to Bridge@Uofl only.

The **Required (Yes / No)** filter option will allow you to select if you want to look specifically for required or optional enrollments; leaving this filter as-is will search for both enrollment types.
Tag/Category Name and Learnable Titles Filter Options

Tag/Category Name and Learnable titles all have the same options that allow you to specify if you want to look for a specific item.

- **is** - This will only pull data for the exact item(s) that you selected.
- **contains** - This will pull data if the enrollment contains any of the item(s) selected.
- **starts with** - This will pull data if the enrollment starts with the item(s) selected.
- **ends with** - This will pull data if the enrollments end with the item(s) selected.
- **is blank** - This will pull data if there is a group, tag/category, or learnable item(s) with no name (aka blank name or title).
- **is null** - This will pull data if there is any item(s) with no name.
- **is not** - This will pull data for any item that is not which item(s) you've selected.
- **doesn't contain** - This will pull data for any item that doesn't contain the item(s) you've selected.
- **doesn't start with** - This will pull data for any item that doesn't start with the item(s) you've selected.
- **doesn't end with** - This will pull data for any item that doesn't end with the item(s) you've selected.
- **is not blank** - This will pull data for any item(s) that is not blank.
- **is not null** - This will pull data for any item(s) that is not null.
- **matches a user attribute** - This will pull data for any item(s) that matches the user attribute(s) you've selected.
- **matches (advanced)** - This requires that you type the name exactly and will search as an 'is' statement.
Remaining Options

In the top right corner of the Analytics are you will have the option to **Update** [1], **Hide/Show Filters** [2], and **Dashboard Actions** [3].

Once you've set up some filters for the search parameters the **Search** arrow will show up as blue, this indicates there are new options selected that need to be searched for. If you've already hit the search button it will appear gray.

In the more options menu, you can access the options to **Download** [1] and **Schedule Delivery** [2].

**Download** enables you to retrieve the information displayed in your search results, including widgets as they appear on the webpage. This allows you to select your preferred format (PDF or CSV), paper size, expand tables to display all rows, and arrange dashboard tiles in a single column. Additionally, there is an option to open the report in the browser to view the data.

**Schedule Delivery** allows you to schedule a report based on your selected filters to an internal or external email.

For additional details, please refer to the guides titled **Analytics Reports: Downloading Reports** and **Analytics Reports: Scheduling Reports**.
Widget Filter Information

The widgets listed below are only affected by specific filters.

The **Total Number of Learners** widget will only be affected by the Account Name, Group Name, Manager Group Name, and Show Terminated Users filters.

The **Group Sizes** widget will only be affected by the Account Name, Group Name, and Show Terminated User Enrollments filters.

The **Most Frequent Tags and Categories** widget will only be affected by the Account Name and Tag/Category Name filters.
