New University of Idaho Mobile Application Available

Information Technology Services has released a new mobile application for use by students, faculty and staff. The application is available for download from the Apple App Store and from Google Play. Search on "University of Idaho" for a direct link to the application. The application currently includes options for directory information, campus maps, news and event feeds, and links to the university and athletics websites. Students are also provided with grade and class schedule lookups. The application also provides employees with the ability to review current leave balances. Options that display personal information require valid a University of Idaho NetID and password. Additional improvements will be released in the coming months. ITS welcomes feedback on this new application as requests for additional functionality are reviewed and prioritized. Links for support and feedback are available from the "About" page of the mobile application.

Nuclear Engineering Student Awarded National Fellowship

Leslie Kerby, a doctoral student in nuclear engineering at University of Idaho-Idaho Falls, is the recipient of the M. Hildred Blewett Fellowship for Women in Physics. The American Physical Society's Committee on the Status of Women in Physics awarded Kerby the fellowship. Kerby's major professor is Akira Tokuhiro, the director of UI's nuclear engineering program and a professor of mechanical and nuclear engineering. The fellowship will provide Kerby \$32,000 to cover her salary, travel and dependent care. It will supplement her existing funding from Los Alamos National Laboratory, where she interned in 2012. Kerby is originally from Bakersfield, Calif., and has lived in Idaho for the past 13 years.

Food Science Students Win National Product Development Competition

Two student teams representing the University of Idaho/Washington State University School of Food Science earned a first place award for a Greek yogurt cake named "Aphrodite's Treats" and second place for a sweet potato pasta appetizer called "S.P. Stuffed Puffs". The teams won the DuPont Knowledge Award, a national food product development competition. The use of emerging food ingredients helped propel their novel products to the top spots in the contest. [Read more](#).
