Benefits Orientation

Benefit Services will host a benefits orientation providing an overview of medical, dental, vision, life and disability coverage, as well as retirement programs and other perks that come with working for the University of Idaho on March, 19 at 8:30 a.m. in the HR Conference Room. This orientation is designed to help employees make educated decisions about their benefit options. Benefits orientation will routinely be scheduled twice a month, alternating mornings and afternoons, and last approximately two hours.

Mad Men Mondays

Join the Women's Center for Season 2 of the award-winning TV series Mad Men and engage in critical discussion of the social issues the show poses. Mad Men depicts American society and culture in the 1960s, highlighting cigarette smoking, drinking, sexism, feminism, littering, adultery, homophobia, racism, and anti-semitism. Themes of alienation, social mobility and ruthlessness also underpin the tone of the show. Each episode is approximately 45 minutes long and an informal interactive discussion will follow at 12:30 p.m. in the Womens Center Lounge (Mem Gym 109). Bring your lunch and a friend. For more information, please contact the Women's Center at (208) 885-6616 or email wcenter@uidaho.edu.

Travel Process Roundtable

Last month a group of users from across campus participated in a Kaizen week to look at the current travel process. This roundtable is being offered to present new tools that were created such as Guidelines, FAQs and other information in an effort to assist in the travel processes from the initial authorization through the Web form data entry steps. Please plan to attend one of the meeting times: Monday, March 19, 2 - 3:30 p.m. – Aurora Commons 4th Floor Wednesday March 21 9:30 - 11 a.m. – Aurora Commons 4th Floor Off Campus –

"Slow Depth" Leads to Great Heights: MFA Student Jory Mickelson Publishes Chapbook

Jory Mickelson moved from the Bitterroot Valley in Montana to Washington for his first chapter of school, but it's Idaho where he's cementing his foundation in creative writing with an MFA and a newly published chapbook, "Slow Depth." "Growing up in such a beautiful setting, I learned to appreciate the land and nature," says Mickelson. "I spent a lot of time fishing with my dad, who is a high school art teacher, and he helped me pay attention to detail." [Read more.](#)

Legislative Update: Land Board Bill, IGEM and Going Home Tax Bill in Discussion

House bill 495, also known as the "Land Board Bill," is legislation designed to restrict the authority and investment options of the Land Board. In general, the bill limits the ability of the Land Board to invest in and operate a commercial business. The University has a concern that this bill violates the constitutional requirement that endowment investments be managed to maximize the return or income. [Read more.](#)

Idaho Court of Appeals

The Idaho Court of Appeals will be hearing cases in Moscow at the University of Idaho College of

Law's Courtroom on March 20 and 21, 2012 from 9:30 a.m. - 2:30 p.m. Schedule of Hearings: March 20, Peck v. State and March 21, State v. Giovanelli, State v. Kramer, State v. Long. The public is invited to attend. For more information please visit <http://www.isc.idaho.gov/caterms.htm>

Biological Sciences Departmental Seminar: Dr. Stephen Lodmell

Dr. Stephen Lodmell, University of Montana, Department of Chemistry and Biochemistry, will present "Combinatorial and high-throughput approaches to antiviral drug discovery" Tuesday, March 20 at 12:30 p.m. in LSS 277.

Computer Science Colloquium

The Computer Science Colloquium, "A Hybrid Model for Very High-Level Threads," will occur March 20 at 3:30 p.m. in EP 122. Languages with multiple paradigms or other special-purpose features often are implemented in ways that make true concurrency difficult in the virtual machine or runtime system. Several popular languages feature a global interpreter lock that limits them to pseudo-concurrency. This talk presents lessons learned in developing true concurrency for a goal-directed, object-oriented language called Unicon. Parts of the work were anticipated, such as switching to thread-safe C library functions, while other parts were a surprise, such as eliminating race conditions in self-modifying virtual machine instructions. The presenter is Jafar Al-Gharaibeh.

More Than A Roof: Documentary Screening & Social Justice Forum

The City of Moscow Human Rights Commission, in partnership with the University of Idaho, and National Economic & Social Rights Initiative invite the public to an open and free documentary screening and facilitated social justice forum, March 20, 2012 at 6:30 - 8:30 p.m. at the Kenworthy Performing Arts Centre. Blue Water Corporation President Presents Science and Entrepreneurialism

Blue Water Corporation president and a professor of electrical engineering, John Shovic will give a presentation on science and entrepreneurialism at 9:30 a.m. Thursday in the Clearwater Room of the Commons. Shovic will present lessons from 25 years as a successful entrepreneur and how chaos has affected each of his six companies, including key decisions and responses to crises. Blue Water is a licensee of a process that removes phosphorous from wastewater, developed by U-Idaho scientists led by Greg Moller. A campus-wide reception with Shovic follows at 10:30 a.m. Other University innovators will also take part. These include faculty, staff and students who have filed patent applications, plant variety protection applications, and invention disclosures with the Office of Technology Transfer.

U-Idaho Opera Presents "The Tender Land," by Aaron Copland

University of Idaho Opera presents "The Tender Land," by Aaron Copland, on Saturday, April 14 at 7:30 p.m. and Sunday, April 15 at 3 p.m. in the Administration Auditorium. Tickets available at the door: \$5 for adults \$3 for students and senior citizens.

Fracture Heterogeneity for Geologic Carbon Sequestration in a Reactive Basalt Aquifer" on March 22, 2012 at 10 a.m. (pdt) in Ag 104 and 11 a.m. (mtn) in Idaho Falls, IF4. The event is free and open to the public.

Mathematics Colloquium: Paul Joyce

Mathematics Colloquium with Paul Joyce, University of Idaho, titled "Mutational Effects and Population Dynamics during Viral Adaptation Challenge Current Models," will occur March 22 at 3:30 p.m. in TLC 032. ABSTRACT: Adaptation by natural selection can follow a stepwise process. At each step of adaptation a mutation arises, the mutant has higher fitness than the wildtype, and the new mutations fixes in the population. In this talk we explore the distribution of first and second steps of adaption. For the viral data under review we show that the distribution of first-step adaptive mutations differed significantly from the distribution of second-steps, and a surprisingly large number of second-step beneficial mutations were observed on a highly fit first-step background. We will discuss two commonly used mutational landscape models: the uncorrelated (rugged) landscape model and the additive (smooth) landscape model. Collectively, the results of the viral adaptation experiments indicate that the fitness landscape falls between the extremes of smooth and fully uncorrelated, violating the assumptions of many current mutational landscape models. However, a third explanation based on Fisher's geometric model provides a better explanation of the data.

Got Sex? "How Big is Your Man Box?"

This month, the "Got Sex?" sexual health education series will examine contemporary society's construction of masculinity and the resultant emotional socialization and cultural expectations for boys and men on March 22 at 5 p.m. in the Women's Center Lounge, Memorial Gym Room 109. Our special guest speakers this month will examine how the "Man Box" mentality, as explored by educator and activist Tony Porter in his TED talk "A Call to Men," can affect intimate relationships in general, but also promote violence/disrespect toward women, and provoke hostile attitudes toward men who choose to step out of the Man Box. Screening of "Blue Gold: World Water Wars"

The International Affair Club presents "Blue Gold: World Water Wars," on Thursday, March 22, at 7 p.m. in the SUB Borah Theater. The documentary sheds light on the world's rapidly approaching water crisis and suggests that wars of the future will be fought over water, as they are today over oil, as the source of all life enters the global marketplace and political arena. The screening is free and open to the public.

SAPATQ'AYN CINEMA Native American Film Festival

Sapatq'ayn Cinema, University of Idaho Native American Film Festival, will be presented at the Kenworthy Performing Arts Center in Moscow, March 22-24. TIAA-CREF and VALIC will also be introducing the new supplemental Roth 403(b) retirement plan. In addition, there will be a presentation from a special guest speaker discussing "Living and Succeeding with a Disability." Sam Kavanagh is a paralympic athlete and hopes to compete in the 2012 paralympics.

"The Future of Education Tomorrow.....is Today" - Apple Demonstration

Made for Mobile Learning, a one hour demonstration on how mobile devices are changing everything in education, will occur March 29 10 - 11 a.m. in the Whitewater Conference Room, Commons. This event is sponsored by the College of Education. Learn how Mac, iPad, iPod, and iPhone make collaboration, content creation and distribution easier than ever before, and how Apple's mobile products and solutions can assist students on their path toward becoming future business leaders, creative professionals, educators, scientists, engineers and more. In this workshop, we explore: what technology tools new students expect when they arrive on campus, how mobile solutions are changing the campus learning environment and how devices like the iPad provide students and faculty with an exciting new world of learning content through podcasting, applications, and electronic books.
