Community Stewardship for Economic Benefits: Wastewater Treatment & Solid Waste Management

March 20, 2013 (8:00 am - 4:45 pm PST; 9:00 am - 5:45 pm MST)

North Idaho College (SUB, Lake Coeur d'Alene Room)

College of Southern Idaho (Taylor 276-277)

REGISTER AT: <http://www.uidaho.edu/president/sustainability-symposium/registration>

| NIC Time | CSI Time | Session |
|---------------|---------------|--|
| 8:00 – 8:15 | 9:00 – 9:15 | Introduction and Conference Overview |
| 8:15 – 9:45 | 9:15 – 10:45 | <p>Changing Context for Waste Water Treatment and Solid Waste Management</p> <p>Speakers will address changing environmental regulations, the need for increased reliance on local funding sources, and opportunities to reduce expenses and generate revenue from waste. They will inspire participants to be proactive in the new landscape of decreased federal support and rapidly advancing technology.</p> |
| 10:10 – 11:20 | 11:10 – 12:20 | <p>Ignite Presentations: Community Case Studies from Idaho</p> <p>Nine speakers, using the fast-paced Ignite format (5 minutes, 20 slides), will showcase what they're doing to manage wastewater and waste in a cost-effective way. Their presentations will cover mechanical and non-mechanical wastewater treatment options; regional and locally financed approaches; and recycling.</p> |
| 11:30 – 12:30 | 12:30 – 1:30 | <p>Lunch Panel</p> <p>How Idaho's colleges and universities are addressing workforce and technology issues important to cities and counties.</p> <p><i>Moderator: Todd Schwarz (ID Division of Professional-Technical Education)</i></p> <p><i>Panelists: M. Duane Nellis (President, University of Idaho)</i> <i>Joe Dunlap (President, North Idaho College)</i> <i>Jeff Fox (Vice President, College of Southern Idaho)</i></p> |
| 12:45 – 2:15 | 1:45 – 3:15 | <p>Strategies for Financing Projects</p> <p>Speakers will review project implementation from concept to construction, including strategies to develop community support, find an engineer, develop a funding package, pass a bond, and secure judicial confirmation. Together, speakers in this session are knowledgeable about the entire array of financing options available for Idaho communities and have worked on projects across the state.</p> |
| 2:30 – 4:30 | 3:30 – 5:30 | <p>Looking Ahead Towards New Technologies and Opportunities</p> <p>Researchers, engineers, and facility operators will share the latest innovations in wastewater treatment and waste management. They will focus on practical ways to save money and generate revenue by thinking differently about waste.</p> |
| 4:30 – 4:45 | 5:30 – 5:45 | Closing |
