

Beef Money Management Station

Question 6

Read the following description of each animal and use the listed market price to determine the each animal's market value.

Animal A: Steer A weighed 1225 live and has a 760 lbs carcass. This steer has a quality grade of Select and is a yield grade 2.

Animal B: Steer B weighed 1250 lbs live and has a 775 lbs carcass. This steer has a quality grade of Choice and is a yield grade 2.

Market Price (based on carcass weight):

Quality and Yield grade:

Choice 1 = 1.34/lb

Choice 2 = 1.28/lb

Choice 3 = 1.28/lb

Choice 4 = 1.08/lb

Select 1 = 1.19/lb

Select 2 = 1.13/lb

Select 3 = 1.13/lb

Select 4 = .93/lb

Question 6. Which animal is worth more money "A" or "B"?
